Technord, a family-run industrial group, incorporates advanced technologies and solutions dedicated to improving the performance of its customers. Every day and throughout the world, the men and women working at Technord use their skills and expertise in electricity (up to 150 kV), Process Control, Industrial IT and Process Simulation. Working at Technord means subscribing to a culture oriented towards customer satisfaction and mutual success.

To continue our development, we are currently recruiting a:

## ***Project Manager Data Center***

### YOUR JOB POSITION :

As a Project Manager, you are responsible for managing multidisciplinary projects at our clients.

In this context :

- You are in charge of the relationship with the customer, as well as with the human and material resources related to the project.
- You will meet project deadlines, budget and quality.
- You are responsible for the supervision of the implementation and the technical and administrative management of work sites related to the deployment of structured cabling networks.
- You coordinate the implementation up to the updating of the documentary databases, the connections at the client's and the complex infrastructure networks projects that may cover all techniques related to networks and services.
- You take care of the reporting about the implementation of the projects.
- You anticipate project deviations and put in place corrective and preventive measures needed to bring the project to a good end.

### YOUR PROFILE:

- You have a BSc/MSc degree in electricity, mechanics or electromechanics.

- You justify an experience of min. 5 years in global project management (financial, team management and business development skills). At least 3 years' experience in a Data Center environment is required.
- You are familiar with the Data Centers' standards. The following certifications are assets: Accredited Tier Designer (ATD – Uptime Institute) ; TIA942 Design Consultant (CTDC – EXIN) ; Integrated Data Center Designer (Schneider Electric).
- You speak fluently English.

WE ARE OFFERING YOU :

- The opportunity to work in a growing business and stimulating working environment;
- The opportunity to travel;
- A rich and varied position within a young and dynamic team;
- A wealth of training and career development opportunities thanks to our in-house academy;
- The stability and longevity of the Technord family-run group;
- A salary to match your experience, including a performance bonus.
- The stability and longevity of the Technord family-run group.
- A company that puts its employees at the heart of its concerns while empowering them.
- A contract for an indefinite period of time.
